¿Qué es Disease?

Disease es un juego de cartas **inspirado** en el popular juego de mesa **Virus**, adaptado para **dispositivos móviles** utilizando **Flutter**.

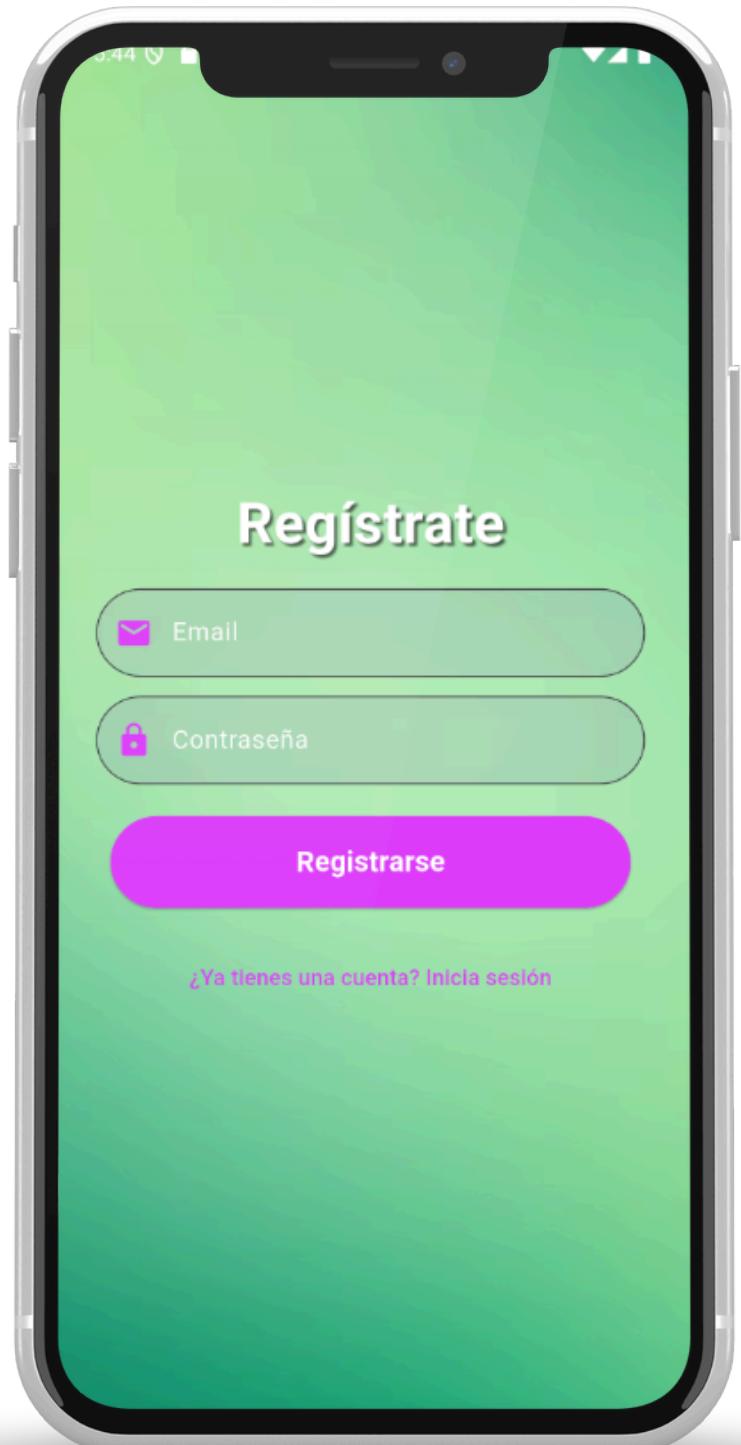

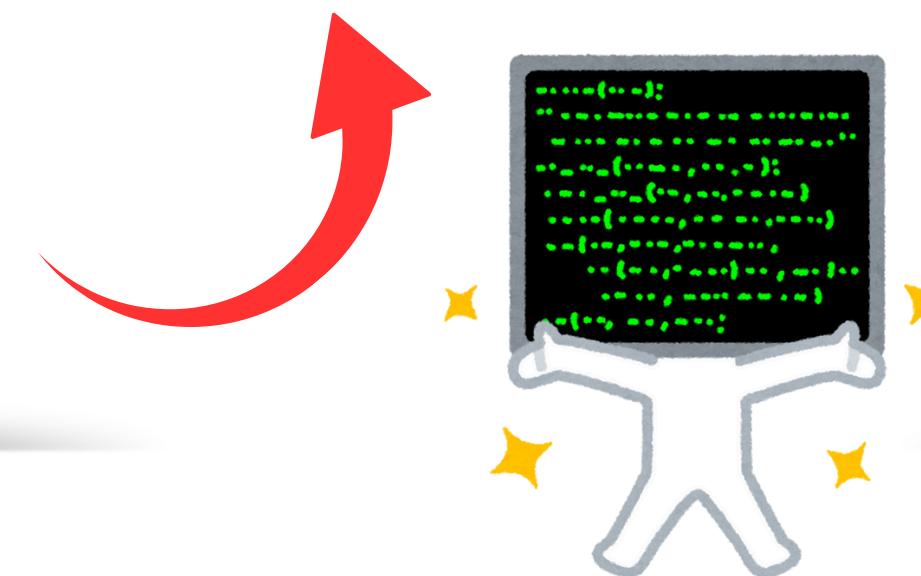

Acciones en la App

Aquí podrás iniciar sesión introduciendo tu correo electrónico y tu contraseña

Y si no posee una cuenta puede crearla con los mismos datos desde el texto de registrarse y se tendrá que verificar el email

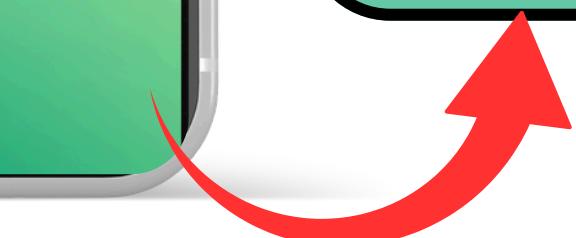

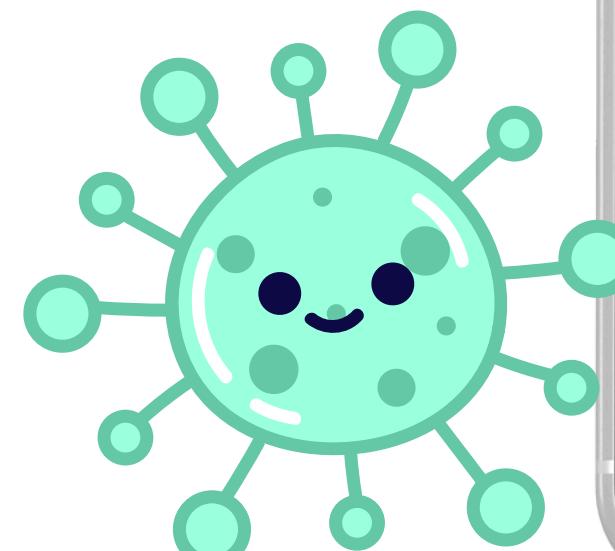

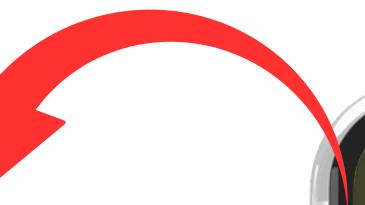

Acciones en la App

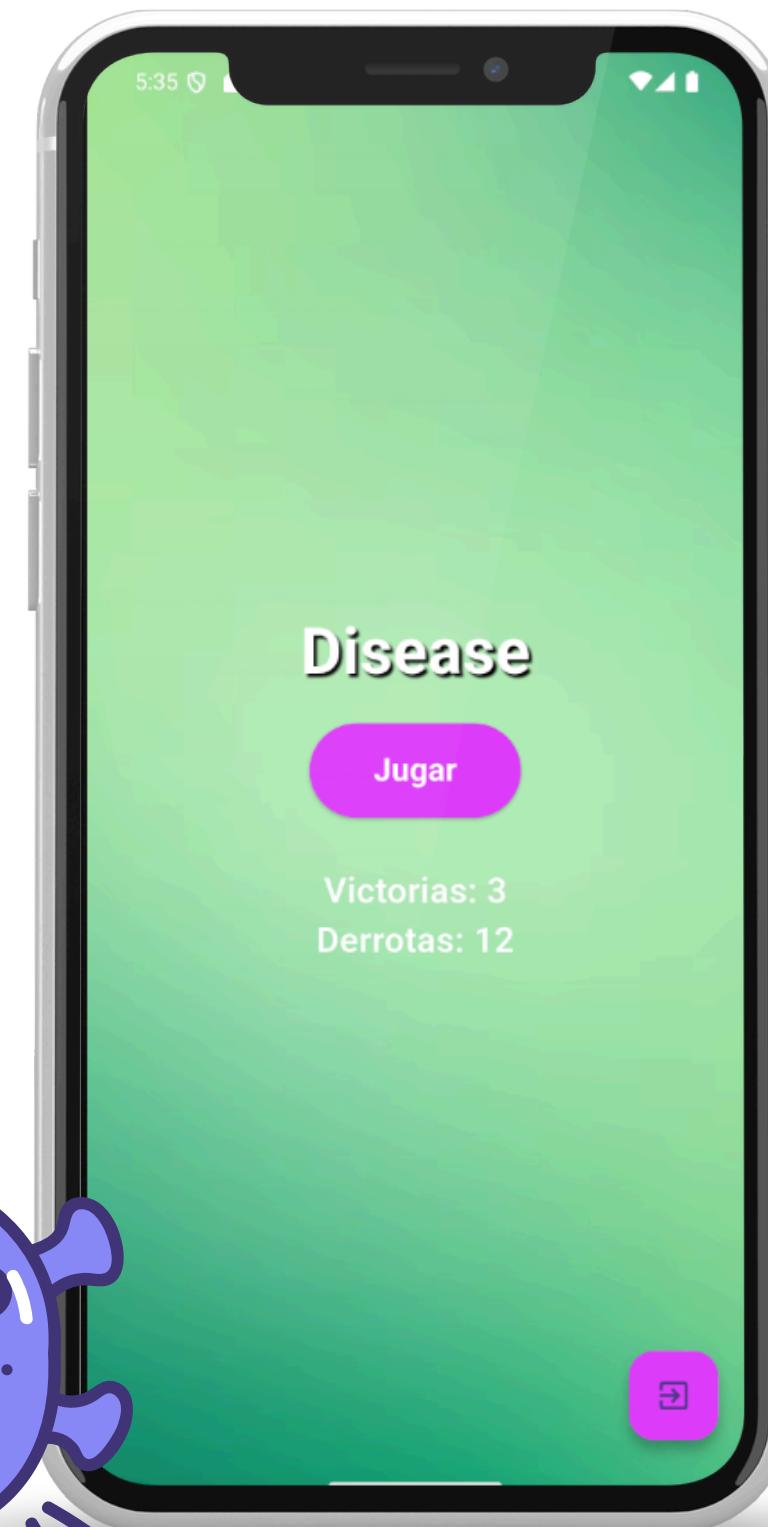

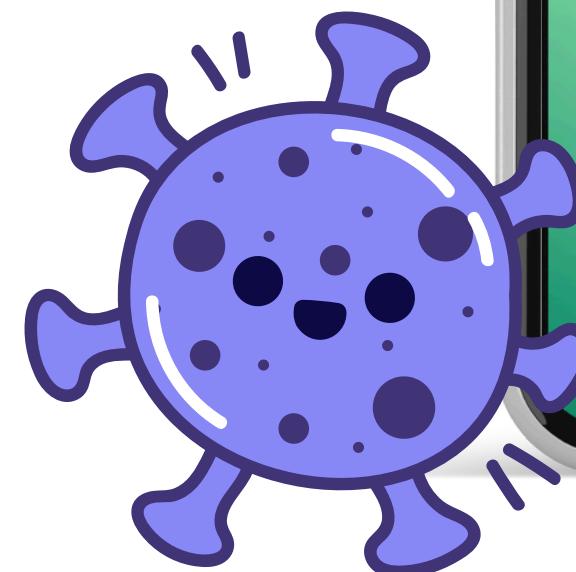

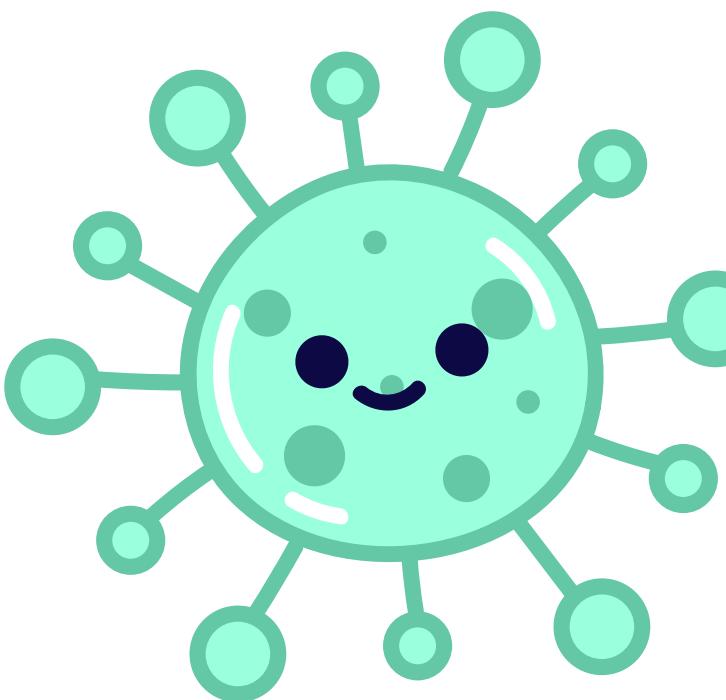

Si el usuario olvida la contraseña se ha creado un apartado para recuperarla

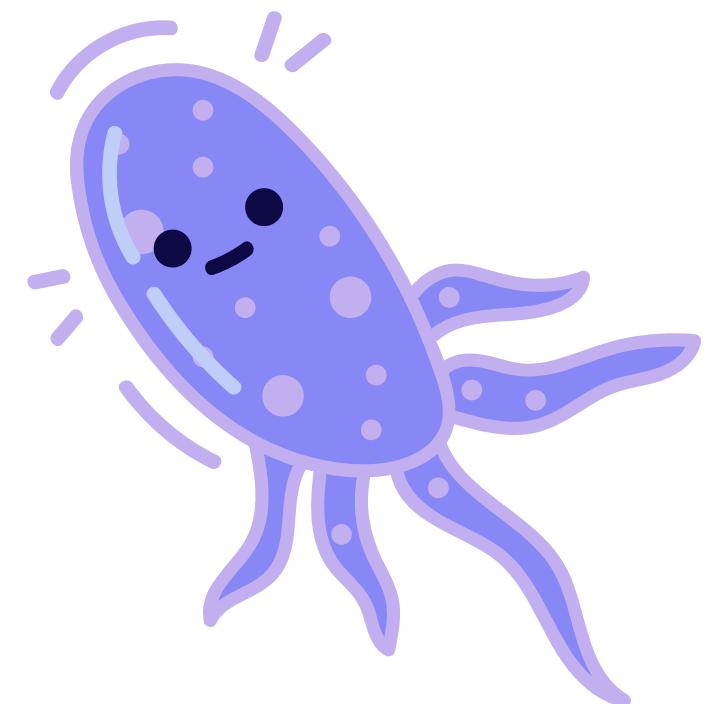

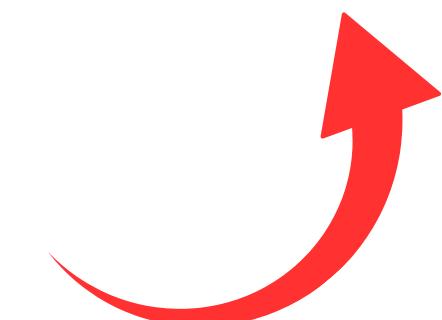

Si el usuario decide abandonar la partida se le contará como una derrota

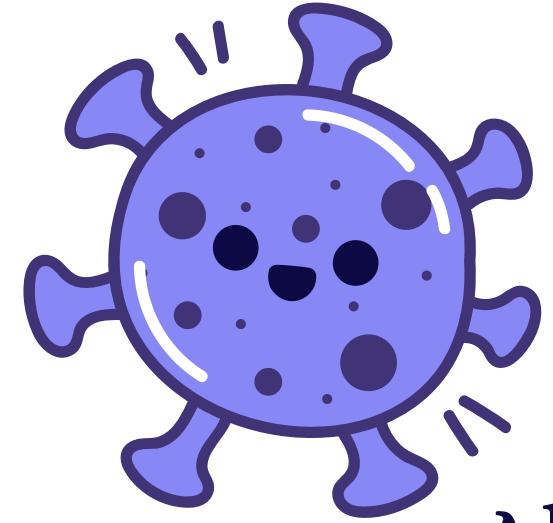

Inicio de la App

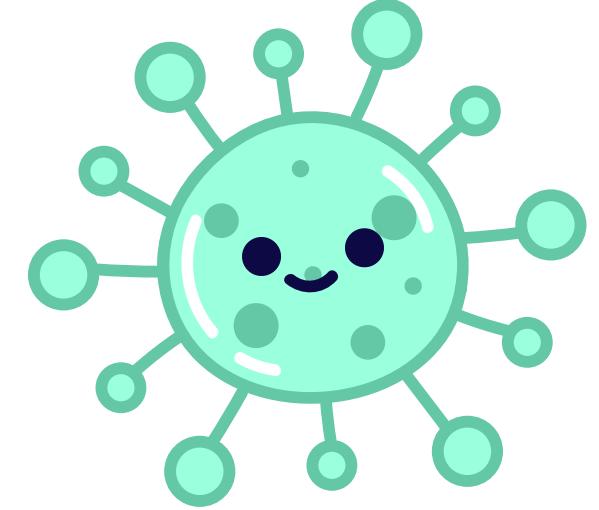

Una vez iniciado
sesión podrás ver tus
estadísticas y pulsar
para jugar o salir al
login

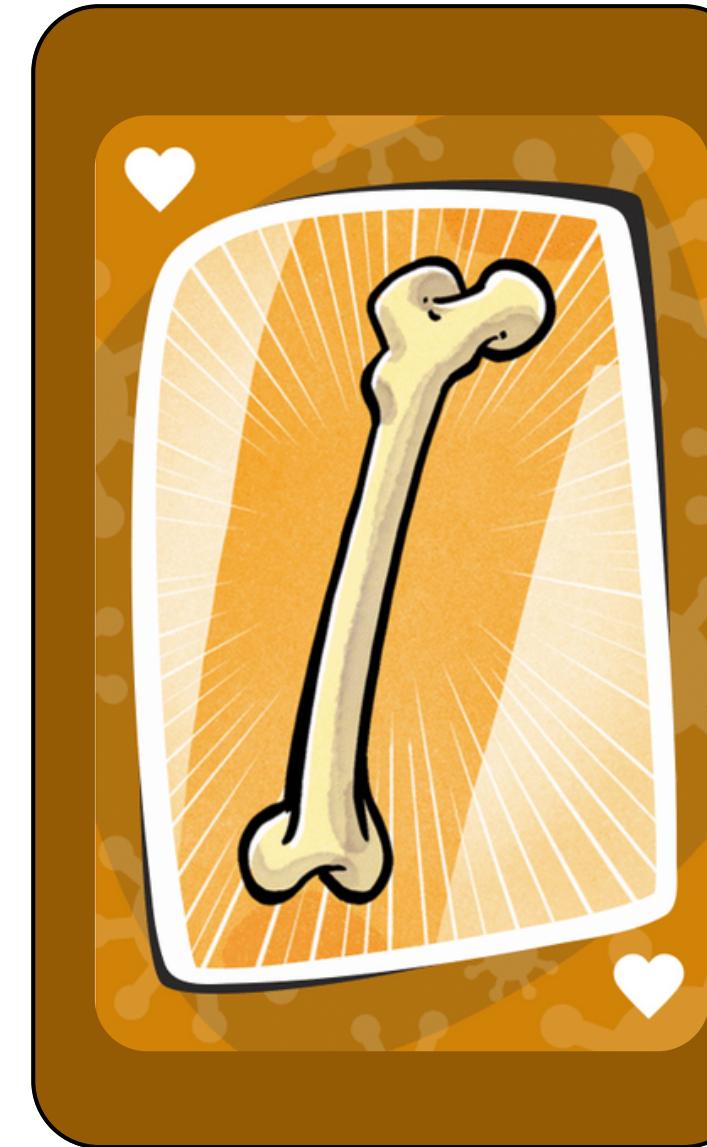

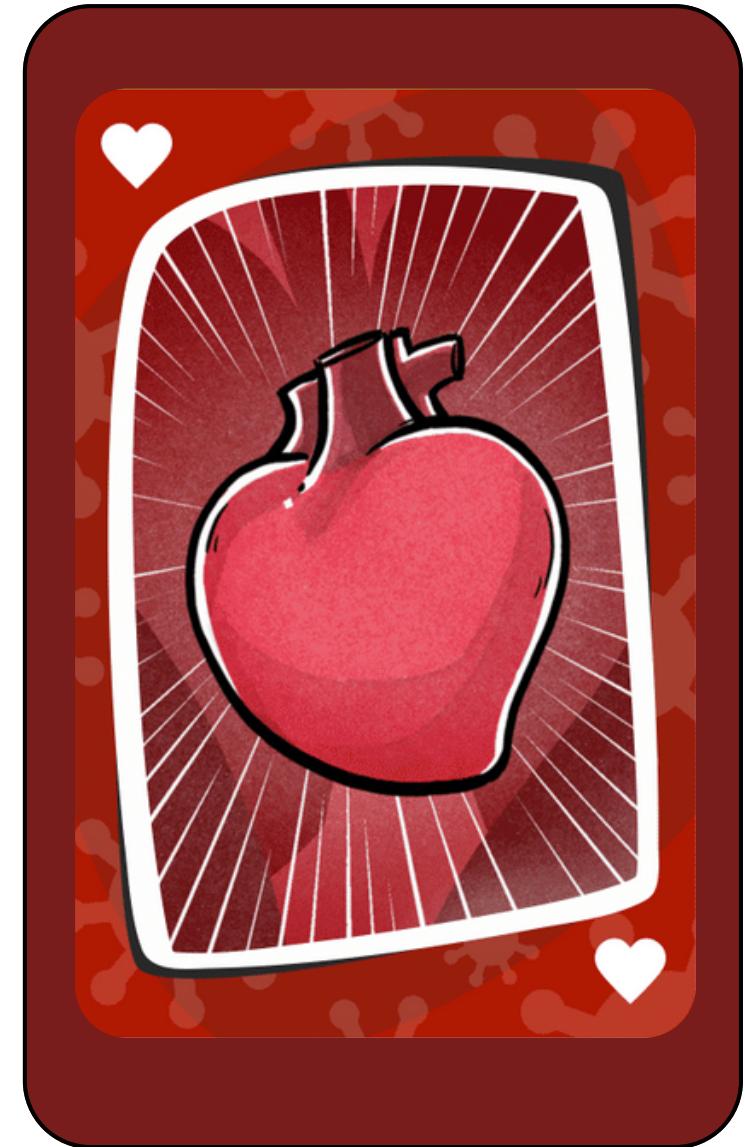

Cartas del juego

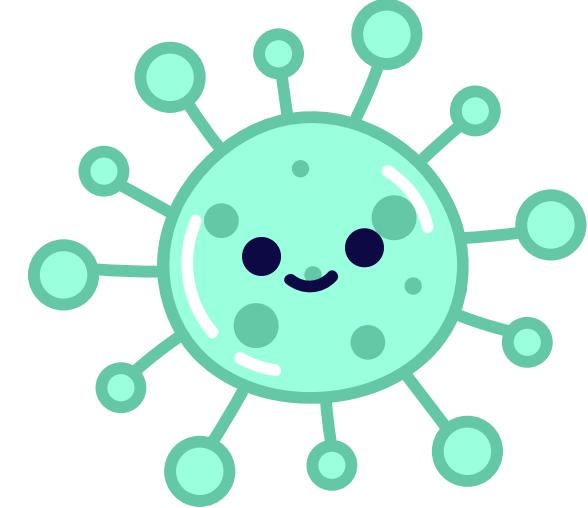

Órganos:

Al conseguir los cuatro órganos sanos el juego finaliza con la victoria de aquel que los tenga.

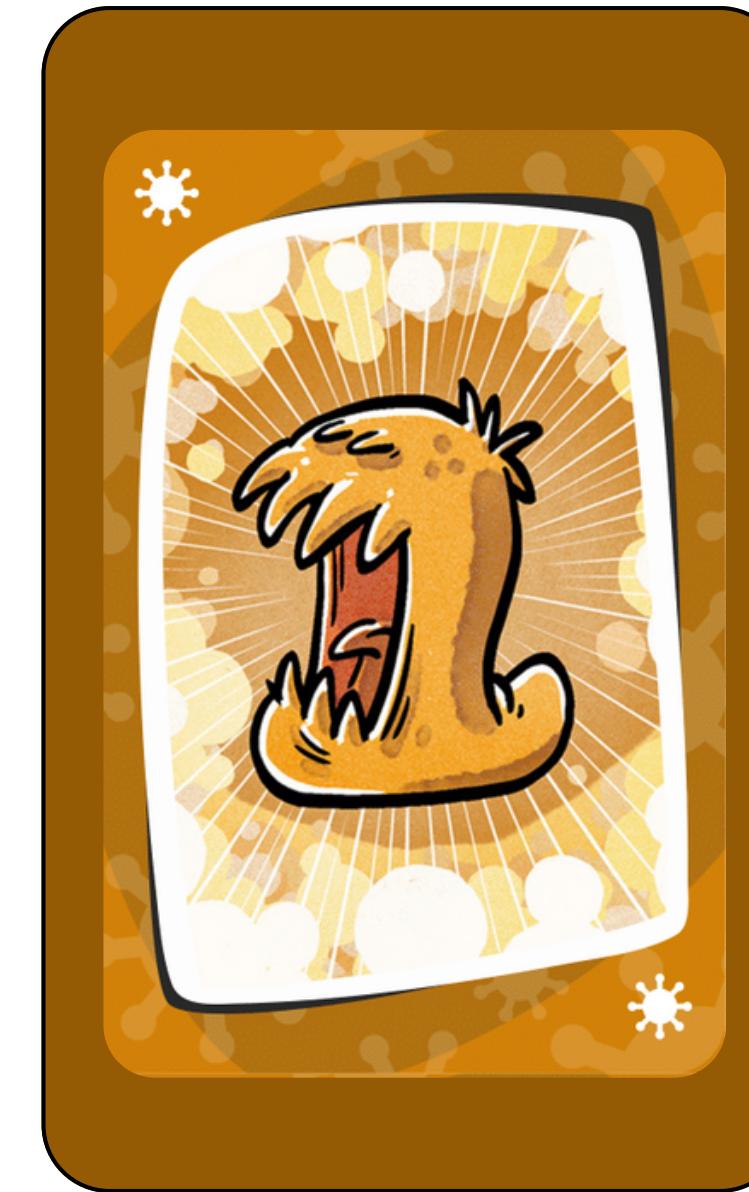

Cartas del juego

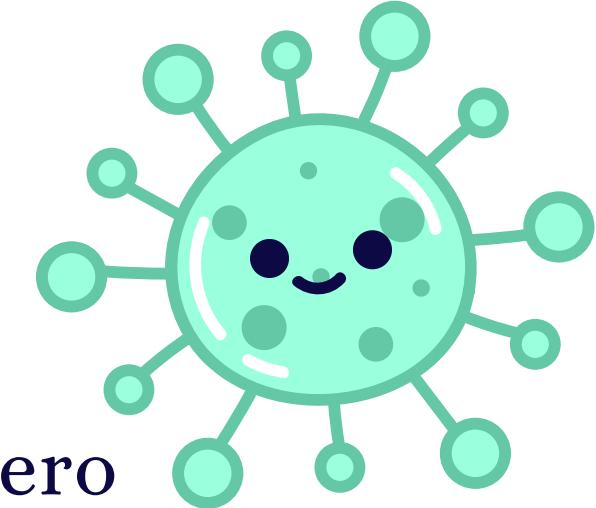

Enfermedades:

Se utilizan sobre los órganos del oponente, al utilizar dos enfermedades sobre un órgano, este muere, pero puede evitarse utilizando vacunas.

Cartas del juego

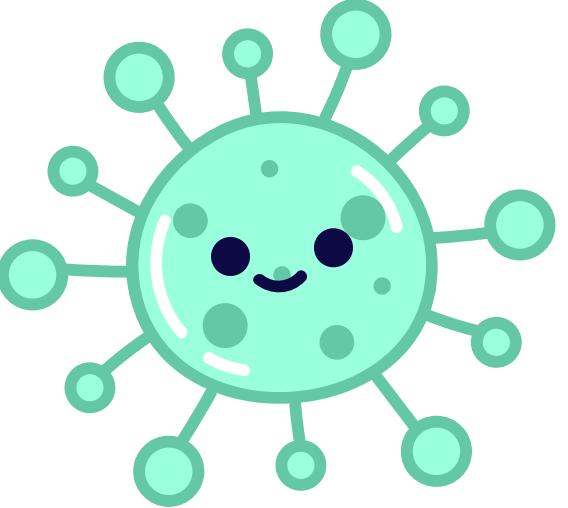

Vacunas:

Las vacunas sirven para quitar las enfermedades de tu órgano pero también para vacunarlos preventivamente, al acumular dos vacunas el órgano se vuelve inmune.

Cartas especiales

Ladrón de Órganos:

Roba un órgano (sano, vacunado o infectado) de otro jugador y añádelo, pero no si es inmune ni si ya tienes uno de ese color.

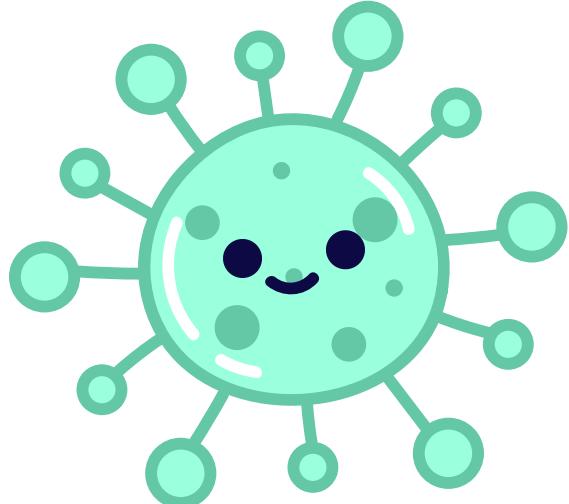

Error médico:

Intercambia todo tu cuerpo por el de otro jugador, incluyendo órganos, virus y vacunas.

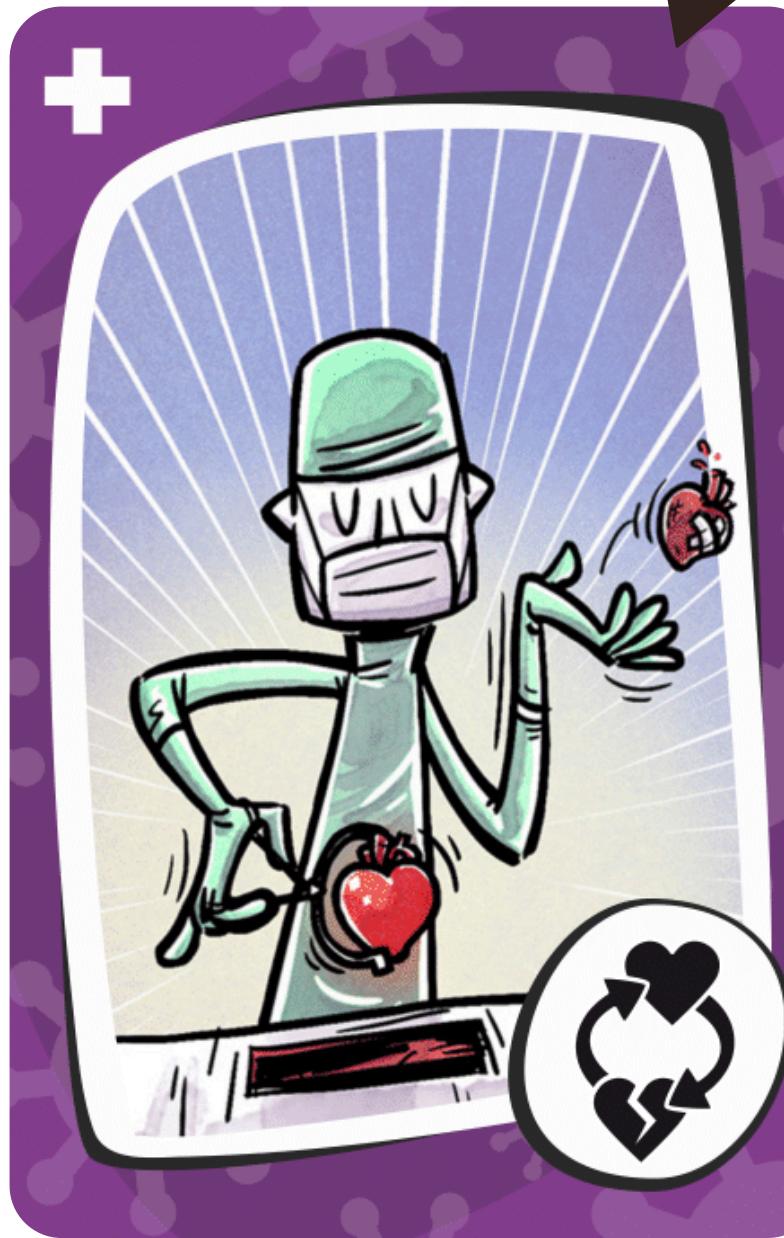

Cartas especiales

Contagio:

Traslada tantos virus como puedas de tus órganos infectados a los órganos del otro jugador.

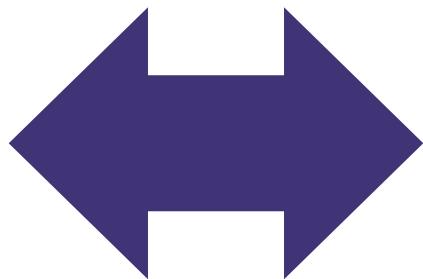

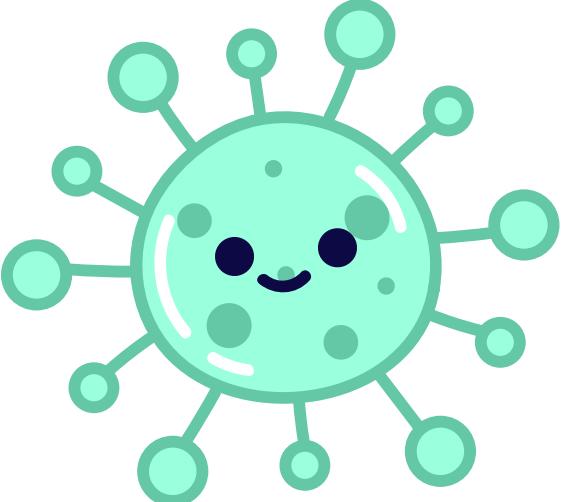

Transplante:

Intercambia un órgano por otro entre los dos jugadores.

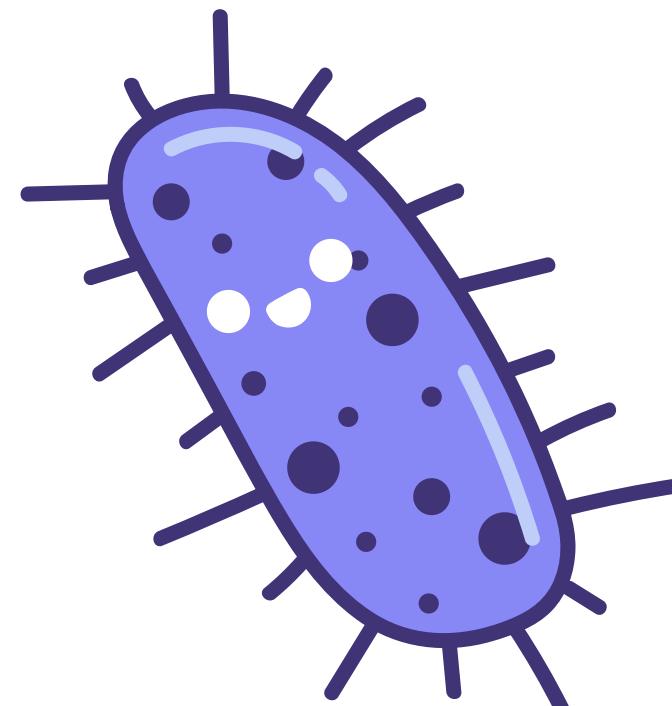

Cartas especiales

Guante de Látex:

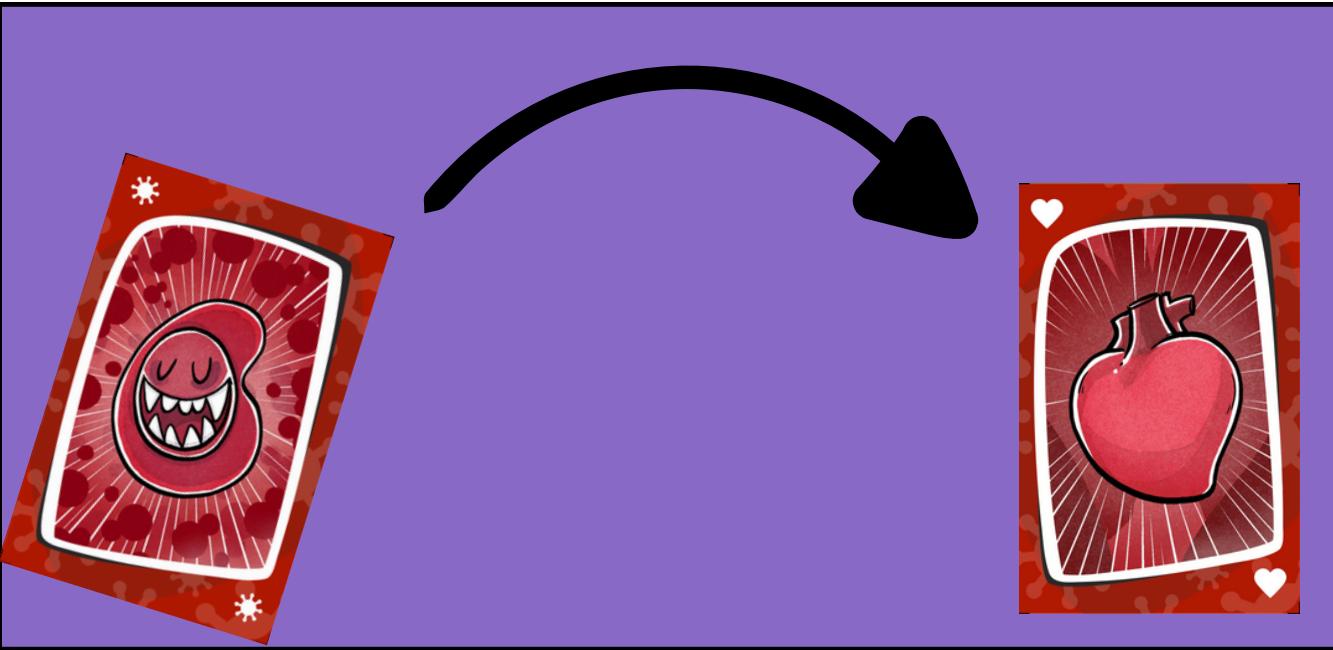

Todos, excepto quien usa el guante, descartan su mano y pierden un turno al robar nuevas cartas.

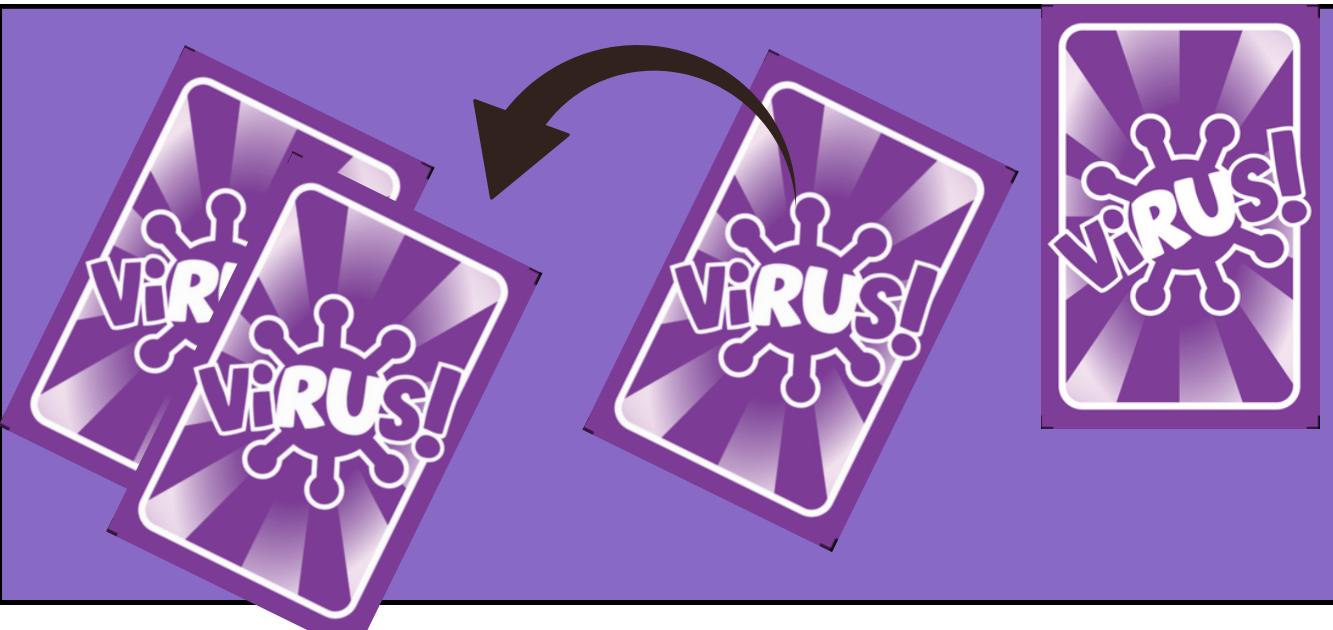

Lógica del Juego

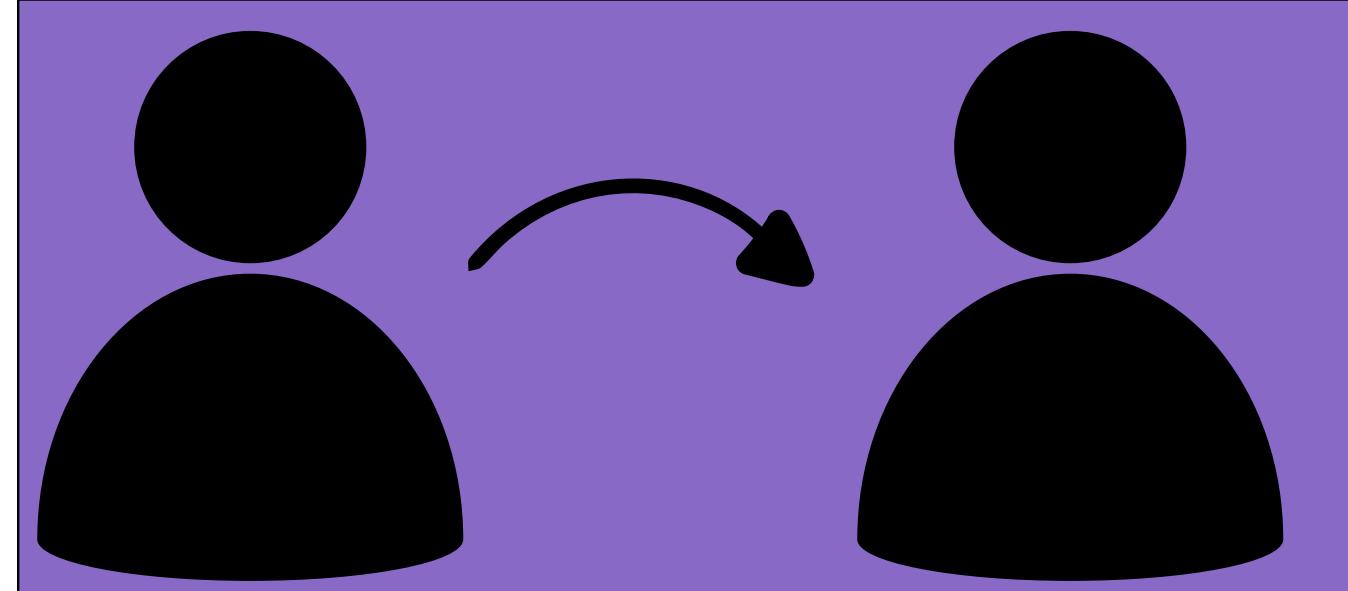

FASE 1: Elige una de estas dos acciones, JUGAR o DESCARTAR

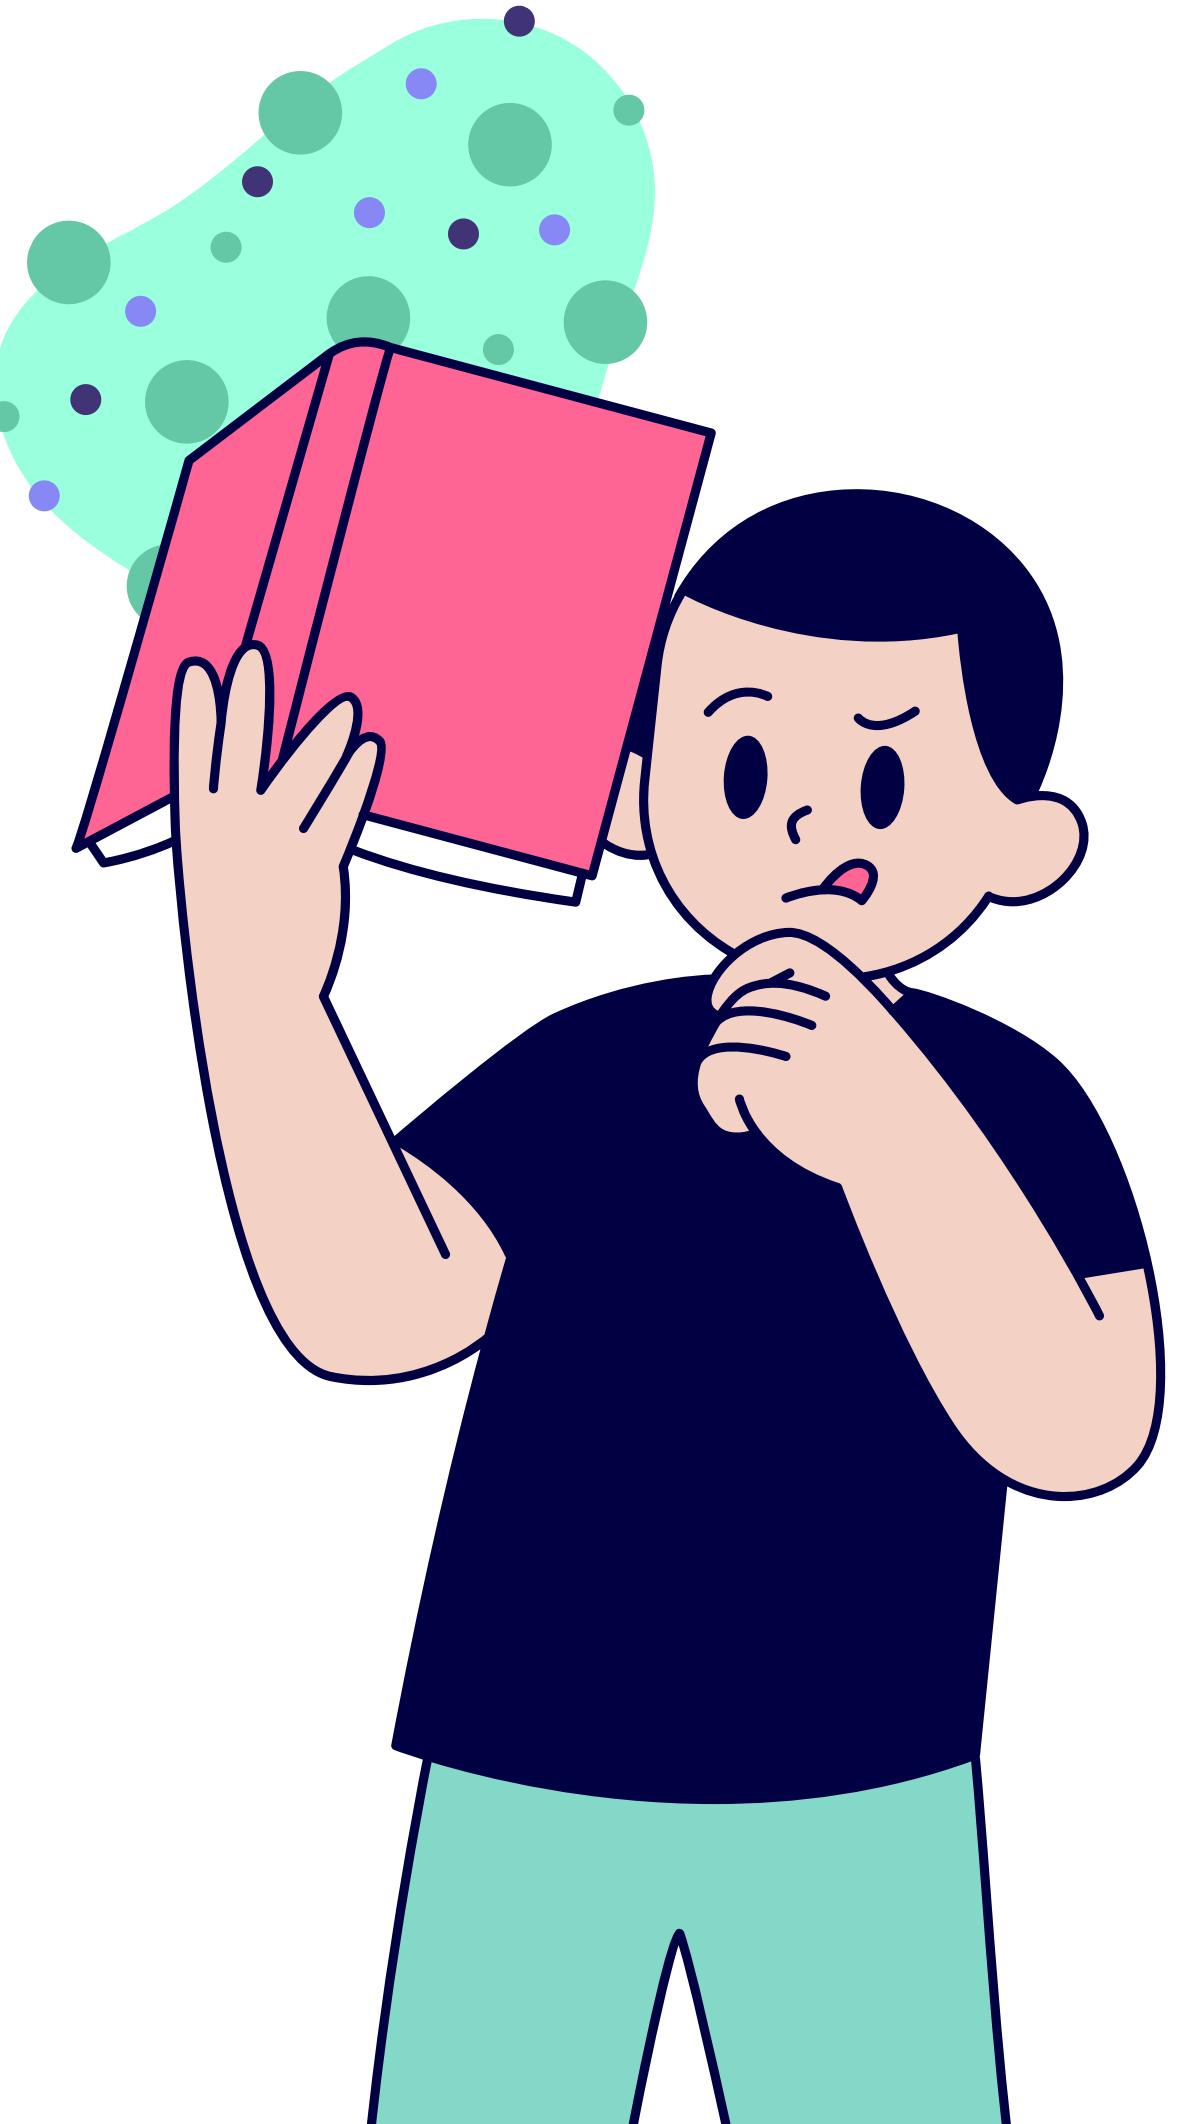

FASE 2: Robar hasta tener 3 Cartas

FASE 3: Pasar turno al jugador
